

Cattle Box Feeder – 1.5 Tonne

(Product code: LFBF15C)

Product Overview:

These box shaped feeders are designed to offer a more budget priced functional feeder, purpose designed for cattle with larger troughs and clear access for a larger animal head. The troughs have adjustable doors to restrict the flow rate and the trough is positioned under the bin to keep most rain out.

A large sliding lid gives full access to the 2.2m³ capacity bin. Inspection windows on the ends of the feeder enables you quickly see when the next refill is not too far away.

A galvanised pipe frame supports the bin and provision for forklift access is made at each end.
