

Product code: LFLF24C

APPLICATION

These large capacity feeders are designed to suit adult cattle, built with an extra large trough profile and higher sub-frame, allowing plenty of head space and a large trough area to eliminate wastage/spillage.

It is capable of handling 8 large animals at one time and is suitable for grain, pellets, heavy chopped and mixed feed rations.

FEATURES

- Fully galvanised finish
- 2 x 2400mm length troughs
- Trough depth and width designed for cattle
- Tractor bump rails
- Wide access opening lid
- Internal bracing
- Strong sub-frames for lifting
- Sight glass
- Adjustable lick doors
