

Sheep Lick Feeder: Wheeled – 2 Tonne

(Product code: LFLF24W)

Product Overview:

The Paton 2 Tonne Wheeled Feeder is a larger unit designed to reduce the need for continual refilling, reducing labour costs. Tow full from the silo to the paddock with ease and convenience with this versatile unit. This larger model can only be moved with a tractor and linkage bar setup, allowing you to raise and lower the unit when travelling.

The trailer has a strong subframe and jack stand, while the hitch of the trailer can be provided as a standard ball hitch, single tongue swivel, double tongue or quick hitch tapered (40mm eye on top, 50mm eye on the bottom). Also a rear hitch point allows two wheeled feeders to be attached and towed in tandem.

100% Australian made.
