

## Cattle Troughs - Belted Rubber Small and Large

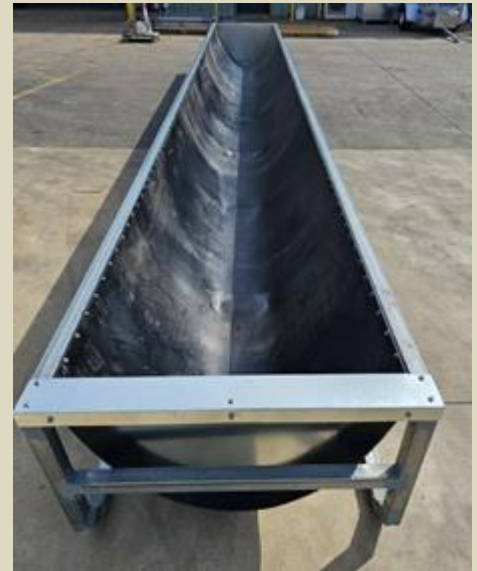

### Product Overview:

These belted rubber feed troughs are a larger capacity trough with more generous proportions

There are two models available. Both models are suitable for cattle but the smaller model is the best option for calves.

A simple design for a practical solution these troughs have lifting points in the centre for tractor forks, or can be towed to a fresh position in the paddock.

The base frame is solid tubing and capped at either end with a steel end plate. Water can escape at these points.

PRODUCT CODE	MODEL	DIMENSIONS					RRP (inc GST)
		Length	Width	Unit Height	Trough Height	Volume	
FTHDCTRS2	Small – 2m	2000mm	600mm	450mm	305mm	0.29m <sup>3</sup>	\$580.00
FTHDCTRS4	Small – 4m	4000mm	600mm	450mm	305mm	0.58m <sup>3</sup>	\$1,090.00
FTHDCTRS6	Small – 6m	6000mm	600mm	450mm	305mm	0.87m <sup>3</sup>	\$1,605.00
FTHDCTRS8	Small – 8m	8000mm	600mm	450mm	305mm	1.1m <sup>3</sup>	\$2,081.00
FTHDCTRL2	Large – 2m	2000mm	1000mm	630mm	545mm	0.93m <sup>3</sup>	\$620.00
