

**Product code: DBC30G**

## APPLICATION

These discharge bins are a general purpose bulk handling bin for front end tractor operations.

The larger capacity means more of a one step process to fill several feeders and so, more efficient.

This 3 tonne bin has a hydraulic ram, opening and closing the feed door for easy usage while driving in the tractor.

## FEATURES

- Fully galvanised finish
- **Hydraulic ram to open and close the feed door**
- Sturdy bump frame for tractor impact
- Fork tines for lifting
- Rope guide holes
- Open top bin
- Strong sturdy structural frame

## SPECIFICATIONS

Length:	1720mm
Width:	1720mm
Height:	2200mm
Weight:	340kg
Volume:	3 tonne or 4.9m <sup>3</sup>
Outlet:	200mm x 200mm
