

Discharge Bin

(Product code: DBC15G)

Product Overview:

These general purpose bins are designed for bulk material handling and can be lifted with the front loading gear on any tractor. The bin has a 1 tonne capacity so can lift approximately 1 tonne.

The spring loaded chute door at the base can be activated by the pull of a rope and shut off when required. The frame of the bin provides protection from tractor impact and the galvanised bin is riveted to provide extra strength.

KEY FEATURES

- Fully galvanised finish
- Sturdy bump frame for tractor impact
- Fork tines for lifting
- Spring release door at base
- Rope guide holes
- Open top bin
- Strong sturdy structural frame
- Volume – Approximately 1 tonne

Dimensions: 1.56m (L) x 1.505m (W) x 1.24m (H)
