

Hay Ring – 1 Piece With Roof

(Product code: BFR10LID)

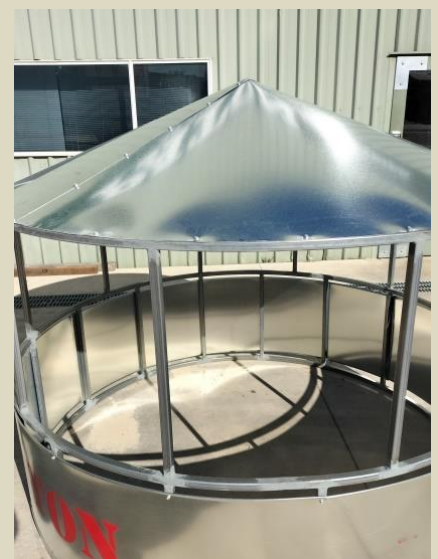

Product Overview:

Hay rings are an efficient and low cost way to conserve the life of a round bale. One with a roof over it is even better.

Keep your hay high and dry from rain and contained at the same time..

Designed to lift under the lid by simply driving in with your hay forks removing the need to get off your tractor.

The skirted base improves even further the last remaining hay.
