

# TRAIL FEEDER – 1.5 Tonne

## Premium Model

(Product code TFPREM2.3G)

The 1.5 Tonne Trail Feeder is a single axle trailer with a bin size to suit feeding several mobs. It is a well balanced, strong and easy to tow utility vehicle.

A strong, 100% galvanised construction with heavy springs and solid axle ensures a long life.

This popular premium model offers a remote toggle to operate the trail feeding door through a wireless receiver. A manual restriction door can be preset to customise the feed flow for individual requirements and speed.

This premium model comes with a canvas top cover, however there is an option of a hard top cover as shown in pictures.
